CLCA Educational Summer Progression Incentive Program

Dear CLCA family,

We are quickly approaching the end of the academy year, but when summer starts, learning does not have to end! Typically, students have been known to take a break from academic activities during the summer months, but research has shown that they could lose up to 20% of their learning from the academic year and up to 27% in math. The great news is that it won't be hard to maintain skills during the next few months!

CLCA has created some amazing academic opportunities for our scholars to continue their growth and development from home. CLCA encourages your family to use the following educational support materials to strive to lessen the loss. These materials will include a hardcopy activity book and availability to online platforms that will foster continued development in the content areas of math and reading.

- Math: Prodigy
- Reading (3-8): [Dreamscape | The Only Hyper-Gamified Reading Program That Works](#)
- Reading (Pre-K - 2): [Squiggle's Park](#)
- Overall: Summer Bridge Activity Resource Book

The available online programs continuously adapt to each scholar's skills, so they get the appropriate challenge whether they are working at, above, or below grade level. These programs will benefit from lessons, videos, and multiple chances to continue improving both their math and ELA skills over the summer. These programs are available 24/7; whenever an internet connection is available. The student will work on the digital platform using their own personalized account. CLCA will establish the personalized accounts and provide your family with the needed information.

CLCA encourages our scholars to continue their development over the summer with some special, exciting incentives. Our team will award our scholars with a raffle ticket for every twenty minutes of on-line engagement and 5 completed workbook pages. CLCA will be using a Google Form to track and record your scholar's engagement. The form along with other information will be housed on our CLCA website under the Parent Portal section. The physical raffle tickets will be distributed at our welcome back to school event occurring later this summer. Our scholars will have the opportunity to choose from a variety of exciting raffle options. We hope you will join us by supporting and cheering on your students as they strive to meet their summer goals.

Your Servant in Christ,

Mr. Matthew Oppermann
